

Abdelrahim Elhaj

Fullstack Developer

📍 Malmö, Sweden 📞 +46 762 981 389 ✉️ abdalraheem.saif7777@gmail.com

ABOUT ME

Ambitious Fullstack Developer student with a solid foundation in IT and practical experience in agile web development. Proficient in Java, Spring Boot, and modern frontend tools, with a strong interest in AI integration and scalable web applications.

EXPERIENCE

- System Developer & Fullstack Developer (Internship)** 2026 – Present
FBK Balkan · Malmö
 - Developing youth portal sports administration systems using Spring Boot and React.
 - Designing and deploying secure RESTful APIs paired with PostgreSQL databases.
 - Working within agile sprints handling Git versioning while acting as a Scrum Master.

PROJECTS

FBK Balkan Youth Portal

Spring Boot · Java · PostgreSQL · Tailwind CSS

- Built a production-ready sports management and administration platform for youth operations.
- Implemented REST APIs, Spring Security with role-based access control, and GDPR data handling.
- Acted as both a Fullstack Developer and Scrum Master within an agile team.

Refine Chrome Extension

JavaScript · HTML5 · LLM Integration

- Developed a browser extension (Manifest V3) for instant text refinement.
- Integrated external AI APIs for processing and optimizing user-generated text.

The Glow Salon

Spring Boot · Thymeleaf · HTMX · Scrum

- Built a complete booking system with an underlying relational database.
- Developed REST endpoints for scheduling and managing appointments seamlessly.
